

# HW3

Finishing DB Schemas for Course,  
Prerequisites, and Corequisites

- Develop DB schemas for (tree-structured) prerequisites and corequisites.
- Update the DB schema for Course so that it connects properly with those for prerequisites and corequisites.
- Be sure to document as we've learned to do.
- Include keys and fkrs.
- Include instances of the relevant schemas for at least two grad courses whose prerequisites are Boolean expressions that include both ands and ors.
