

SPOJ #33 - TRIP

[Re-submit Assignment](#)

Due	Monday by 6pm	Points	100	Submitting	a file upload	File Types	zip
------------	---------------	---------------	-----	-------------------	---------------	-------------------	-----

Submit the source code for your solution to SPOJ #33 - Trip.

- Source code must be in a file called **trip.py**. It should be Python **3.x-compliant**.
- Source code must be commented (In a real contest we don't have time to comment, but we want to learn techniques in this course that we revisit and reuse.)

Be sure to include each person's name at the top of the file as well as the pledge. Each person in the team must submit on Canvas.

Upload a single zip file called trip.zip with the Python source and test cases (minimum of 10) inside. Also, put the team members' names in the comments section on Canvas to facilitate grading.

Note:

If you cannot get your code to pass the tests on SPOJ, you should also submit a PDF in your zip file explaining:

- What type of error you are getting on SPOJ.
- What you tried to do in coding the algorithm.
- What test cases you ran locally and what is wrong with the output. If you see nothing wrong with any test cases locally, double check corner cases.
- How you went about tracing/debugging your code.

The more information you provide, the easier it is for someone to help you correct your problem.

Trip Rubric

Criteria	Ratings		Pts
Program Correctness	75.0 pts Full Marks	0.0 pts No Marks	75.0 pts
Name	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Pledge	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
Comments	5.0 pts Full Marks	0.0 pts No Marks	5.0 pts
