CS 385, Lab: Elementary Sorting

Name:Katie Prescott Date:2/20/16												
Pledge:I pledge my honor that I have abided by the Stevens honor system												
	For each algorithm, show the array after each iteration of the main loop. Since different implementations these algorithms do exist, be sure to use the code supplied in Canvas under											
•			-									
	"Elementary Sorting Algorithms". Do not show unnecessary steps, and do not simply stop early if the											
array is sorted. Trace through these algorithms carefully. You may not need all the lines given.												
Bubble Sort Selection Sort
